WELCOME TO THE

Conceived by Miguel Paredes, “The Wheelies” is an animated sitcom centering on an anthropomorphic (or human-like) family of atomic-sized and lardaceous creatures, The Wheelies. The show is set in the fictional, Orwellian world of Wheeland, part of a complex, microscopic universe within a paperclip found under the presidential desk in the Oval Office. The show bases much of its humor on parodying American pop culture, politics and the human condition.

WHAT ARE THE WHEELIES

Over 30 years ago the Wheelies were originally developed as a comic strip appearing in New York Newspapers. The show is set in the fictional, Orwellian world of WheelieWorld, part of a complex, microscopic universe within a paperclip found under the presidential desk in the Oval Office. The show bases much of its humor on parodying American pop culture, politics and the human condition.

The Wheelies themselves are represented on the Ethereum blockchain as an ERC20 NFT digital art collectible that you can collect. In future episodes your very own Wheelie can be inserted in the animated series as well as almost any other NFT you may own that you have commercial rights to.
