

Renowned Artist Miguel Paredes Drops New Wheelies NFTs Paired With The Release Of His First Cartoon Animation Series.

Acclaimed [Artist Miguel Paredes](#) best known for his NY graffiti/anime-inspired art and for being the official artist of the 12 annual Grammy Awards has dropped his new series of collectible NFTs and launched his new cartoon animation series on YouTube. "The Wheelies" is an animated sitcom centering on an anthropomorphic (or human-like) family of atomic-sized and lardaceous creatures and set in the fictional, Orwellian world of Wheeland, part of a complex, microscopic universe within a paperclip found under the presidential desk in the Oval Office. The show bases much of its humor on parodying American pop culture, politics, and the human condition.

Paredes paired the release of his new animated cartoon series with a drop of collectible NFTs that can be easily minted through your Metamask wallet on the Ethereum Blockchain. The Wheelies NFT's are represented on the Ethereum Blockchain as an ERC20 NFT digital art collectible. In future episodes, your very own Wheelie can be inserted in the animated series as well as almost any other NFT you may own that you have commercial rights to. A total of 7,777 Wheelie Characters will be minted each at a cost of 0.05 ETH with a limit of 5 Per wallet.

The Wheelies world consists of over 20 plus characters many of which you can mint and others which will be minted later as well as airdropped to holders during giveaways. The initial mint will only consist of the main Wheelie Family, we call the nucleus. There will be a total of 7,777 collectible Wheelie Characters that may appear in the animated sitcom series.

Miguel Paredes is the first artist to pair an animated sitcom with NFTs and give collectors the opportunity to have their NFTs featured on an ongoing sitcom series as it grows its visibility.
